New Device Gives Altitude Warning 'LAST WARNING'

Two pilots examine the cigar-like forward antenna, arrow, of a new radar altimeter and warning device being installed on Paramerican World Airways clippers. It sends out continuous radar impulses below and ahead of the plane, which are translated into feet-above-ground readings on a warning dial, inset, on the instrument panel. The device offers a virtually foolproof system to warn pilots of altitudes from 2000 down to 300 feet.

NATION-WIDE REPORT

RECEIVED FROM

A letter from State Fire Marshal Ray R. Gill, constituting a "last warning" on condemnation of the century-old Salem city hall, has been received by Mayor R. R. John-

The city hall was condemned as unsafe on Oct. 25, 1941, by Gill. His letter asked that the city make immediate provisions for removing

the city's fire equipment and city jail from the premises.

Mayor Johnson referred the matter to city council in a letter Saturday, asking that the body take action on the problem at its meeting Tuesday, March 16.

Moscow Seems Site

When Prime Minister Stalin suggested the talks in a letter to Paasikivi dated Feb. 22 and delivered just 14 days ago, he said Russia would agree to meet either in Helsinki or Moscow. Most Finns seem to want to hold the meetings here, but others prefer Moscow.

Stalin's proposal for a mutual assistance pact like those Russia now has with Hungary and Romania has caused much concern. Most Finns oppose any far-reaching military alliance with the USSR.

"To the old rule that one should count 10 before berating another individual," he advises, "I would add a new rule that we should count 10 hours or 10 Rite masons days before berating another nation." This, coming from a man who served as secretary of state during almost 12 years of difficult foreign relations, is profound advice for a nation of name-callers. "No achievement can be higher than that of working in harmony with other nations so that the lash of war may be lifted from our backs and a peace of lasting friendship descend upon us," he declares.

One particular bit of advice stands out in the words of this conscientious public official. It is this: That the citizens of the United States should give the same degree of thought to their public affairs that they give in their private affairs—their businesses, professions and interests. All these are of only secondary importance, as would be made immediately and painfully evident if a collapse of representative democracy wiped out the right of individual citizens to pursue the guarantees of American freedom.

"In political and economic affairs," Mr. Hull observes, "the human race has suffered a steady decline, and it will not do to put everyone to sleep by singing of our progress in science and invention.

Come in - see the real thing in automatic all-season heating and ventilation!

Henr's an amazing new system that combines fresh air . . . automatic warmth . . . and sheer magict

In winter-it keeps car air automatically at the desired temperature . . . with a gentle blanket of warmth instead of the old-style blast of heat. It circulates warmth fore and aft, side to side. Does away with windowfoggiog problems. Sirves xus a comblese charitie of aix suce a minutes

On rainy days-it picks dry, fresh air right out of the mist . . . keeps interiors crisp and windows clear.

During heat waves-it circulates a quiet flow of fresh air throughout the car . . . even when windows are closed and the car is standing still!

See it and you'll agree-it's the successor to all the car heating and ventilating systems you've ever known!

So drop in soon at your nearest Packard showroom. See how the new Packard Eights let you "tune in" the hest of every season!

Building Tip: Don't Skimp On the Roof

If you are planning to build a new home, you'll be wise to study carefully the types of roofing materials available before making your selection. The roof obviously is one of the most important fea-tures of a house. To afford the maximum degree of protection it must be able to bear the brunt of winter's snow, ice and cold as well as summer's heat and rain.

Constituting such a vital, perma nent part of a house, the roof should be of a material which will last as long as possible with a mini-mum of maintenance. Moreover, it is highly desirable from a safety

FTAKE the glamour of its tapered graceful-I ness for granted, if you will. One glance tells you it's tops.

Take an inside peek at its newly fashioned interiors - and see if you're not dazzled by the luxury that greets your eyes.

But wait - just wait - till you learn what makes this banner beauty run off with the year's high honors on the highway. Dollars to drachmas - you'll fairly itch to get in and Gol

For now your right foot commands a Firehall power plant that's as eager as a panther on the prowl - yet is so quieted in purr and pulse you harely sense its telltale throb.

Now you slip through traffic or light out cross-country as relaxed as a baby with his bottle-in a body that's hountifully big, cozily cushioned, and insulated against the usual noises of Haveling.

Now you experience the first scientific system ever devised to shield a car's ride

against road noise, shake and the vibration build-up that previously took advantage of an automobile's tendency to play sound box.

Now you ride the washboard roads and cobbles as though they were carpet - thanks to coil springs all around - plus extra-lowpressure tires, carried on Buick's own wider, more stable Safety-Ride rims.

And last but best, if a Roadmaster's your choice, you can enjoy the really effortless driving - in a new kind of drive that not only frees you of gearshifting, but that deesn't even shift itself!

It's Dynaflow Drive " - a drive that's devoid of all halt, lag and hesitation through all speed ranges - because here, for the first time, the power plant itself does what goars used to do.

Fact is, you'll find the new Buick sparkling with more than a score of new advances in ten brilliant models that span three series and give you your choice of three wheelbases and four power ratings.

So why dally? Here, certainly, is the dilly of the year for smartness and roominess for the newest in driving ease and riding relaxation - and for all those basic bounties that are forever Buick's.

Place your order with your dealer now whether or not you have a car to trade and hasten the day when you'll reach those motoring heights you hanker for.

*Optional at extra cost on Roadmaster models only;

BUICK alone has all these features in box of power with no quara ever shifting either manually or mechanicully. (Optional, Roadmaster Series). FARES-THRU STYLING - distinctive leables of Mandaux beauty. VISSA-SMISLOSD SIDS - ymasib MI-BOISED SISESALL COWER -
